

Model Name	Hawk B1plus Pro Black Edition / Pro Edition For C/P/T-Line		
Tubeless Rim Color	Hand High Polished with Exclusive Matt Carbonized black Grey Process		
Tubeless Rim Size	40 mm Height, 16" 349* 18.2mm (Inner)	Outer Width	23.2mm for comfy & Secure Bicycling
Tubeless Rim Design	Tubeless Ready / None Rim tape Design, It means rim tapes no long required.		
Tubeless Rim Process	Advanced 3D Diamond Milling Technologies (Reduce Body Weight Tech and 2-tone color)		
	Silent Project For Valve Hole (Valve will not shaking when cycling)		
Andoza Rim Benefits	Keep rolling speed longer when unpedaling or city cruise and comfy cycling / Stable Cornering		
Hawk Rim Body Shape	Chubby Toroidal Design for High Spoke Tension process		
ANDOZA Tubeless Rim spoke hole & Valve Type & Tire Pressure Information			
Spoke Holes Drilling	Angled drilling (fit spoke to Flange)	Spoke Hole	16 Holes Front & Rear
Brake Track	Short Braking System Control	Valve Type	French Valve / Clincher
Inflation Pressure	115 psi / 8bar (Recommended)	Valve Hole	F/V 6.5mm (Presta Valve)
Recommended Tire	25C- 44C Tires	Max Pressure	130 psi / 9.0 Bar
ANDOZA Patented US7075 Low Drag Drive Hubs System			
7075 Hub Shell Color	7075 Alloy Space Black Color	Side Caps	7075 Alloy Matt Black
Hub Shall Material	One Piece of Ultra Strength U.S. 7075 alloy with Precision Machinery& Hand High-Polished		
Axle / Shaft Material	Ultra Strength 7075 Alloy	Machining	Front 16 / Rear 16
Front Hub Shaft Type	Hollow Shaft: C-Line / P-Line / T-Line	Locking Way	105A Skewer / QR Compatible
Rear Hub Shaft Type	Hollow Shaft: C-Line / P-Line / T-Line	Locking Way	105A Skewer / QR Compatible
Durable Bearings	Sweden and Japan high quality, durable Deep Groove Double sealed cartridge bearings		
FreeHub Body Type	Shimano Cassette Lock Ring Type/ P/T-Line / Shimano 11s / Shimano 10s Lock Ring.		
	Brompton External Speed 2s to 5s Ready Compatible with both C-Line Cogs & P/T-Line Cogs		
	C-Line Cogs / Shimano 9s or 10s Cogs: Ex 2s -3s		
	P/T-Line / Shimano 11s Cogs Ex 3s-4s-5s // HEX 7s Cassette compatible for achieved 7speed		
ANDOZA Exclusive Custom Made Aero Spokes Information			
Spoke Color & Lacing	XD Black & 6pcs Laser Engraved Logo Spokes		
Spoke Material	Forged Stainless Steel	Spoke Count	Front 16 / Rear 16
Spokes Size & Type	Custom Made 3.6mm Width with forged & tapping process Straight Pull Bladed Aero Spokes		
Pro Spokes Lacing	Radial Lacing at front Wheel		
	Radial Lacing at Rear Non-Drive Side // Crossed Lacing at Rear Drive Side (Unique Lacing)		
Spoke Angle Design	Front & Rear same spoke angle, spoke tension balanced between left & right side		
Spoke Length Design	Front & Rear same spoke Length from hub flange to rim hole. Easy for service and maintain		
High Strength Nipple Type & Color Information			
Nipple Material	Ultra Strength 7075 Alloy	Nipple Color	Black with Custom Made chrome ring
Professional Hand-Built Wheel Information			
Wheel Building	100% truly Hand-Built by professional experienced master		
Wheel & Hub Logo	Over Sized Laser Engraved Logo process		
Wheel Packages	105A Front Skewer / RVE-30 Removable Valve Extender / Spare Parts / Convert Kits (2s-5s)		
Wheel Design Benefits	High Spoke Tension for fast Acceleration / stable when corning & Sprint / Fully power transfer		
	Stable rolling Speed Maintaining / Fast Acceleration / Enhanced Lateral Strength for cornering		
	Fully Power Transfer when pedaling / Low drag system when coasting / Instant Drive		
Weight of Wheel	1078g	Warranty	2 Years (Check https://andoza.com for More details)
